Content

1. Preliminary Remarks	3
2. Profile MINIMUM and BASIC-WL: TypeCode	3

1. Preliminary Remarks

At the time of publishing there are still a few particularities which ought to be taken into account when using ZUGFeRD 2.1. These particularities, however, do in no way constrain its applicability and only applies to the mentioned circumstances.

2. Profile MINIMUM and BASIC-WL: TypeCode

In Germany, the ZUGFeRD XML-files of the profiles MINIMUM and BASIC-WL are not considered as valid invoices. This explains why the following element is limited to code "751" (posting aid) in Germany:

```
rsm:CrossIndustryInvoice/rsm:ExchangedDocument/ram:TypeCode
```

No Schematron rule to validate this has been defined as yet because other codes may be used in countries outside of Germany. Please bear that in mind if you as the user are creating the XML.
